Related subject: Cramlington Village

We live in Richmond Way, Barns Park. We strongly object to the proposal to remove Barns Park from the Village Ward and add it to Cramlington South East. We want to stay part of the Village community. There is a 4-lane dual carriageway between Barns Park and Cramlington South East; it is not a natural boundary. Barns Park has been part of The Village for many years and we would like it to remain this way. The claim that projected numbers will rise in The Village is wrong. There is an aging population in Cramlington and especially here in Barns Park. We don't believe voting numbers will increase. There is a lot of Green space in Cramlington South East but not much in the Village. The green space here in Barns Park is a useful amenity for The Village.

I repeat - we strongly object to the proposal to remove Barns Park from the Village Ward and add it to Cramlington South East. We want to stay part of the Village community.
