Comment text:

Related subject: Killingworth

I live in postcode area [REDACTED] which is the western part of Killingworth. My local services are in West Moor and Killingworth Centre. Under LGBC proposals it is intended to transfer my area into the Longbenton electoral ward. This decision pays no respect to local and independent transport movements and commuter journeys as West Moor and Killingworth are mutually interdependent communities whereas Longbenton is simply a northern and heavily urbanised sprawling suburb of Newcastle-upon-Tyne. The LGBC preferred option appears to be based on a very limited understanding of what comprises a distinct community for the west Killingworth area. As such the North Tyneside proposal of incorporating my post code with Annitsford, Burradon and West Moor is far more logical and sensible.as it ties together similar local communities on the western fringe of Killingworth. Therefore. Map A should be rejected in favour of Map B which is the North Tyneside Council proposal..
