## Comment text:

Dear LGBCE,

I would like to support the proposed Monkseaton ward within your suggested boundries for North Tyneside.

I believe that the Monkseaton shares ["Shared issues around Anti-social behaviour", "Shared amenities like schools, shops etc"]

As usual there has not been much awareness/information provided about the changes to boundaries from the Labour controlled council, no leaflets, no emails, no information about how the changes might impact the area, representation, (hopefully it will not be a way of reducing Conservative held areas!!!) changes to services etc and I hope that the changes do improve communities and hope that we are kept more up to date than in the past after all we pay the recently highly increased community charge!!!

Many thanks
