Related subject: Skircoat Green Ward and proposed new ward

Hi,

I have been looking at the proposals for a new ward, which are sensible, but I would very much like our area to remain part of the Skircoat Green Ward. My reason for this is that, Skircoat Green is very much the closest community area to our location as the only other close by facilities are the town centre, which is costly to visit due to parking charges and how busy it is. Although towards the fringes of the ward at my address, we still feel very much part of the community and are, indeed directly off Skircoat Green Road. I run the local Scout Group and try to keep their connection with the church going, and am also involved in other community projects, which I would continue in any case, but there is a real community spirit that is very much linked to the existing ward boundaries and councillors and it would be a shame to have to start building that again.

I don't think it is possible to ask people whether they agree to a new ward without providing the boundaries and the potential councillors' details as you are asking people to vote with no information.
