**Related subject:** Burnell

I do NOT support the proposed changes. To link Burnell (a rural Ward) to Bayston Hill (an urban ward) is wrong as Burnell and Bayston Hill are different wards altogether. They have different and conflicting priorities based on their different sizes, populations and locations. Another reason to leave Burnell alone is that the parliamentary constituency boundaries are about to change. The current Burnell ward is due to move to South Shropshire constituency. But if the LGBC report is accepted, and Burnell and Bayston Hill ward is created, then the new ward would have 2 MPs, one for Bayston Hill and one for Burnell. This creates confusion in how people are represented nationally particularly if these MPs belong to different parties. Please leave Burnell as it is and put Bayston Hill and Otley/Reabrook together instead as they are both urban.
