Related subject: Morda Section 67

I feel any interest in the Morda area from OTC would be purely financial to gain extra Council Tax payers, as evidenced a few years ago when they moved their development boundary to benefit from a developers 106 agreement in the ORC area, (eventually this was reversed). Another big issue in moving Morda into the OTC area would be the effect on the Oswestry Rural Council budget, Morda provides a big part of the residents tax contribution part of the ORC budget and removing it could have a substantial negative effect on their budget. Lastly there is little synergy between the populations of Morda and Oswestry Town and I have no doubt that residents of Morda would lose out financially on Council Tax charges against return of council services which would follow any change of boundary between Oswestry and Morda..
