Related subject: Radbrook division

The Radbrook division has expanded hugely.

Concentrating on the centre of the ward as defined by the Radbrook primary school, doctor's surgery , shops and other services the Ryelands area (Ryelands, Sandiway, Woodside Drive) faces onto Radbrook Road and fits into the division.

Toronto Avenue, Falcon's Way, Dickens Place, Copperfield Drive, Churchill Road, Cavell Drive) face onto Mytton Oak Road and away from Radbrook for transport, shops and services. The additional new primary school will reinforce the separation from Radbrook. This is very new housing and the nearest services are not situated in Radbrook but in Copthorne and Bowbrook. Thus these roads are more closely aligned with Copthorne.

Crowmeole Drive, Oakfield Drive and Rad Valley Road again face more naturally for transport and services to Mytton Oak and Copthorne.

Ridgebourne road, Dunedin and Aspen could fit with Porthill but I can see the argument for keeping them within the Roman road (south) and Radbrook Road boundary.
