**Related subject:** Wem

I strongly object to the proposals for the boundary changes to Wem, Shropshire.

I have seen the map and the split between two areas and two councillors. The split is not a cohesive move. The present situation works extremely well. Wem and its Town council in one area is a untied entity that represents all the people of Wem. I fear that a Wem Town and Wem East Parish Ward introduce a competitive nature and will not be helpful for Wem. It will also have an affect of the Wem Rural area. The present councillors represent all and do an excellent job.

The proposals are merely a numbers exercise. They are not geographically or socially advantageous for Wem.
