In response to the proposal for moving the parish of Nash from Cleve division into the Clebury Martimer division for local council representation at Shropshire Council, we have a strong objection to such a move. Is this because the B4212 Cleve Hill to Burford road is a convenient division?

The communities of Cleve Hill, Nash, Burford and those alongside the said road have strong geographical, cultural, economic, recreational and evangelical links and it is vital that these our areas share a common representation at local government level to maintain community identity and effective local government.

We hope this proposal will be firmly squashed.

Yours faithfully,
