Very little re investment into our lane which is used as a rat run. Poorly designed "sleeping policemen" which are far too numerous and high for residents using the lane daily. Very little activity from the police based on information supplied by local neighbourhood watch on drug dealing or checks on vehicles regular speeding. No access buses to either Bradford or Brighouse for residents who either have to drive or walk to nearest bus stop on main road. Little or none up keep on pathways road edges etc. Basically paying artificially high council tax for bins emptying only.
