**Related subject:** Idle & Thackley

I think the Idle and Thackley ward is correct and a good representation of the area and should remain as it is. However it should not be part of the overall Bradford East Ward as this is not representative of the local community. It should be part of the Shipley Ward as the make up of the communities are similar. For shopping and leisure facilities I would use those local communities of Shipley, Wrose, Baildon & Ilkley. I do not use any facilities in the other areas that make up Bradford East. This was particularly obvious when as part of covid Idle & Thackley were kept in lockdown as part of Bradford East yet our local figures were low and our adjacent wards in Shipley and Rawdon were not in lockdown. Idle & Thackley should be part of the old Bradford North area not shoved into Bradford East.
