Related subject: Wharfedale

It is essential to take account of communities in the review - where people feel connected to. Wharfedale is a community, from Addingham in the west to Burley-in-Wharfedale in the east. However there is some natural community between Burley-in-Wharfedale and Menston. Menston is currently half in Bradford district and half in Leeds district, which makes no sense and is unhelpful at the local level. It would be a positive step to increase the population of Wharfedale Ward (which comprises Burley-in-Wharfedale and most of Menston) by including the whole of Menston. Also Hawksworth could be added to Baildon ward to increase numbers there.
