The current Link ward is a "shotgun marriage" of several very rural communities and the completely urbanised area of Malvern Link. This means the 40% of rural constituents are effectively disenfranchised by the urban area which - for at least the past 10 years - has received all the attention of the Division member. This Division **MUST** be split up, with the rural part of the area matched up with areas of like interest. Reorganisation of Malvern Hills District Council boundaries in 2023 has lost any merit of coterminity that the current Link Division might - wrongly - have been presumed to possess. Now is the time to remedy matters, with urban and rural parts of Link of utterly different expectations and aspirations combined with more empathetic neighbours.
