**Related subject:** Not entirely sure what this means!

The map and website on boundary changes is not at all user friendly. Is this deliberate to prevent people commenting? My interest is Stebbing the suggestion moving it into an area aligned with Braintree rather than Uttlesford/Saffron Walden. This is a nonsense - facilities health schools etc are all located based In Dunmow/Saffron Walden yet the suggestion is to move administratively to Braintree - this will not provide proper representation particularly at government level. This is a complete nonsense and change for no purpose unless some hidden motive.
