Related subject: Castle Point

Hello, I just wanted to correct a minor error in my previous submission which I've just spotted. The correction regards the variance if my proposal for adding Bowers Gifford and North Benfleet to the Benfleet division were accepted. I made a minor calculation error where previously I had the new variance as roughly 0% for mainland Castle Point as a whole, when it should be -8%. This is still within the acceptable 10% variance limit however so it does not invalidate my submission as a whole. My calculation for the specific divisions is still fine though.

My apologies for the error!
