Comment text:

Please find attached a submission in respect of potential boundaries for South Worcestershire, as part of the Worcestershire review.

South Worcestershire (the area covered by the three districts of Worcester City, Malvern Hills and Wychavon) is a separate community from North Worcestershire (the area covered by the three districts of Wyre Forest, Bromsgrove and Redditch). South Worcestershire is characterised by market towns surrounding a historic cathedral cities; North Worcestershire on the other hand is oriented less to Worcester and more towards the neighbouring West Midlands conurbation for employment and services. South Worcestershire councils cooperate over a shared development plan for the three districts.

South Worcestershire should have 30 divisions, as at present.

This proposal demonstrates that North Worcestershire should have 27 divisions, as at present, and that good electoral equality across these divisions is possible. Indeed Redditch seats could remain entirely unaltered. However I make no specific proposals on North Worcestershire as I have less understanding of the communities there. This proposal for South Worcestershire is designed to complement proposals from others for divisions in the North.

As this proposal covers 30 divisions it would be lengthy to explain the community cohesion of each division. However some headlines are:

* Worcester, by far the largest settlement and the only city in the county, is treated as a separate community in its own right and fully contains 10

divisions. Divisions do not cross the city-district boundaries. (It may be sensible to review division boundaries in Worcester once the separate Worcester review has been finalised; this would be possible under my proposal as Worcester is treated as a standalone area and can be revised without affecting non-Worcester seats).

* Within Worcester, 2 divisions are entirely west of the River Severn and 8 divisions are entirely east of the river. The community to the west of the river is very distinct with its own local centres, high school and other facilities. This feeling of distinctiveness from the main city becomes real during major floods when the main bridge becomes inaccessible. The current division boundaries have a Riverside division crossing the river, which does not reflect any shared communities so there is an opportunity to improve this. The two divisions each contain two of the wards currently being consulted on in the separate Worcester review and therefore maintain the community links of those wards.

* Warndon Parish represents a distinct community and can be coterminous with the parish boundaries

* 3 divisions are now entirely within the boundaries of the Malvern town urban area, reducing the mixes of urban and rural in the current boundaries.

* Powick division straddles the corridor between Worcester and Malvern, reflecting communities which look to both areas for services.

* Kempsey & Whittington reflects the communities to the South East of Worcester, historic villages affected by significant recent suburban expansion. Kempsey and Norton-juxta-Kempsey parishes form the majority of this ward and have strong links.

* A more tightly focussed Pershore division, representing the town and immediately neighbouring, closely connected villages.

* Entirely rural divisions such as Harvington & Inkberrow (representing parishes lying between Pershore, Evesham & Redditch) and Drakes Broughton & Upton Snodsbury (representing parishes lying between Pershore and Worcester)

* Two more compact urban seats representing Evesham, plus one covering the corridor between Evesham & Broadway

* Copcut and North Claines, representing the newer suburban communities lying between Droitwich and Worcester.

This proposal achieves excellent electoral equality:

- 28 divisions are within 10% of average in 2029

- Battenhall division is 16% below average. This can be improved further by adjusting the boundaries between St Peter and Battenhall divisions. Part of B2 polling district could be transferred to Battenhall - either that part east of A38 Bath Road or preferably that part north of Duck Brook, would be a good reflection of communities.

- Evesham North is fractionally over 10% - if this is a problem it could easily be rectified by moving a small portion from Evesham North to Evesham South & Broadway

Many thanks for your consideration
