## Comment text:

**Related subject:** The boundary between Olton and Lyndon wards.

I propose that the small part of Olton which lies 'across the canal' (on the east side of the Grand Union Canal) be incorporated into Lyndon. These streets comprise part of OL01:

Baddesley Road  
Fernhill Road  
Richmond Road (part only numbers 13-115 and 106-36)  
Rushbrook Close  
Scott Grove  
Scott Road

If this were done, the canal would make a clear boundary between Olton and Lyndon. This demarcation would associate the above streets with neighbouring roads in Lyndon on the same side of the canal.

Lyndon and Olton would then comprise logically distinct wards, separated by the Grand Union Canal.
