Organisation Name: (Member of the public)

Comment text:

Netherton needs its own council, we get no support from our current councillors, their priority is Crosland Moor, and as a result our streetlights etc are decaying, they do not champion our causes (including requests to change speed limits and install speed bumps), our community events lack support (so our community spirit is poor) and our views are not represented.

Netherton needs to be aligned to honley, meltham and holmfirth because their councillors have similar views to ours, they provide a more support for community projects and as a result there is a much stronger community spirit.

Kirklees should be disbanded, the financial mismanagement is appalling, the planning decisions (including the housing in Netherton which attracted 800+ objections) are shocking and Huddersfield/ Holmfirth get far less funding than the Dewsbury, Mirfield and the other areas. Huddersfield and Holmfirth town centres need urgent investment to support growth, the Kirklees development plan needs ripping up and the towns need to find a more sustainable way to grow and develop.
