FAO Boundary Commission

URGENT APPEAL

I wish to lodge my appeal against your unfathomable decision to change the fulwell / Southwick boundary .
I live in [REDACTED] and have family that live in [REDACTED], FULWELL.

Newcastle Road Is the natural and sensible divide between the two wards certainly NOT the railway line.

My daughter was born and brought up in fulwell. When she married and bought her first home she moved to Southwick. She had to be moved off the Drs as she was no longer in the fulwell boundary . Luckily when she moved to [REDACTED] she was able to go back to the family Dr. Does this change in boundary mean she will once again have to change Drs?

I am at a loss to see any reason that there needs to be a change in boundary. What are the advantages for the residents of the streets in Fulwell to be moved to Southwick? Certainly none that I can think of, will their council tax be reduced to reflect this change? I'm sure their insurance will increase if this unwanted change goes ahead.

Does this change help the Labour councillors to try and get a foot hold in the fulwell ward? Does this change try to increase house prices in

Southwick?

Could you please explain fully the illogical reasoning why you think this needs to be done?

Could you please acknowledge that you have received this email and accept my appeal AGAINST this unnecessary change.
