Related subject: Washington

Dear Sir,

I wish to give the following feedback regarding the proposals.

The use of compass points for the names of the Washington Wards is not acceptable. As a Washington resident, I attach no value or meaning to these and they help assist the sentiment that Washington is secondary to Sunderland. Place names are much preferred and I endorse the ones proposed by the Conservatives. The warding arrangements overall in Washington are strong and I support them. It is necessary for the new Washington South Ward to have a name that does not include Washington because the Commission has proposed keeping a part of Houghton in this ward and this is manifestly not Washington. I strongly support renaming Sunderland City Centre Ward as 'City Centre Ward' rather than Central because Central, to Washington, either means the Sunderland Central Constituency or the Washington Central Ward. To have a third meaning to 'Central' is too confusing."
