## Comment text:

Hello,

I am writing in relation to the LGBCE review of warding arrangements for Sunderland City Council.

I am a regular visitor to Sunderland for leisure purposes and to visit friends on Felixstowe Road, Ford Estate, Sunderland, [REDACTED].

I agree with the Commission's proposals across the city, which I think generally follow locally understood boundaries and keep communities which share amenities and local facilities in single wards.

However, I would like to support all of Ford Estate being included together in the Pallion Ward. This would make for more convenient local government by ensuring the whole estate (including the 'High Ford' part around Felixstowe Road) is represented by one set of councillors. It would also make for an easily identifiable boundary by ensuring that local people knew that all streets in Ford Estate are in the Pallion Ward, whilst all streets in Pennywell and Hylton Lane Estate should be in the Pennywell Ward.

All of Ford Estate shares similar amenities on either side of Front Road such as Highfield Academy, Blackie Park, Lambton Street Youth Centre and Hylton Road playing fields. I believe it makes sense for the whole of Ford Estate to be included in one ward.
