Related subject: Hollycarrside proposed boundary changes

I would like to oppose the boundaries changes for Hollycarrside. My family have lived in Hollycarrside Ryhope for many generations we are so proud of our heritage and I feel very strongly that we remain part of Ryhope. Some of the young family's with in our community heavily depended upon support from Ryhope community centre, Blue watch and other services for Ryhope families. They may no longer be able to access said support services if the changes go ahead and for some they are a lifeline.

I identify as a member of the Ryhope community as have lived work in Ryhope all of my life. The proposed changes will split a wonderful close community and this saddens me greatly. My Father Dedicated his life to Ryhope, serving for over 30+ years as a school governor within both Ryhope infants and junior school as well as being part of Ryhope Labour Party. He passed away a few years ago and he would have been devastated at the thought of Hollycarrside not being part of Ryhope. I do hope and pray we Hollycarrside residents remain part of Ryhope.
