**Related subject:** Fulwell &Southwick Wards

The area between Seaburn metro station and line to Fulwell Mill and Newcastle Road has always been part of Fulwell as a district and Council Ward with a distinctive feel and look from neighbouring wards. Your proposal to transfer our street Coniston Avenue from Fulwell to Southwick ward makes no sense in empathetic with the rest of the needs and priorities of Southwick ward constituents . Our neighbourhood schools , shops, transport, and doctors are all contained within Fulwell ward . If we are are annexed over to Southwick ward there is no link or affinity with Southwick are commonalities of local issues which would be of concern or consideration for Southwick ward councillors which we would need addressed from our streets and area. All of these are in common with our current council ward area of Fulwell. Please leave us in our current ward of Fulwell .
