**Related subject:** Stroud Trinity Ward

As a resident of Stroud Trinity Ward I object strongly to the proposal to remove this area from Stroud central and to put us in Bisley and Painswick. I live in Stroud Town, not in Bisley and Painswick, and I want to be represented by a councillor who understands the needs of my area and whose responsibilities are coterminous with District and Town councils. You cannot split off a section of the town and bung it in with a large rural area whih has different needs and issues. It doesn't make any sense. I cannot see how one councillor would be able to cover the very different needs of such an area. It's an idea driven by numbers rather than by common sense and should be abandoned.
