Related subject: Moving Owlpen to Wotton Under Edge division

I am at a loss to understand the logic behind this proposal. Owlpen is both geographically and culturally more part of Uley and I believe the residents of both identify with this connection. We are close neighbours. Whoever decided to propose this change should examine their motivation as it likely will not accord with the wishes of those living in these two communities. It's like taking Coombe away from Wotton and including it in a division several miles away. Please think again.
